

Careers in Construction Month

NAHB invites all student chapters, local associations, and industry professionals to join us in celebrating Careers in Construction Month in October. Spread nationwide awareness by participating in one of the events below and sharing social media posts that celebrate the rewarding career opportunities in construction.

Oct. 25, 2024: Careers in Construction Day

NAHB encourages all associations and members to participate in a community service build project or other activity celebrating homebuilding professions.

Oct. 28-31, 2024: Celebrate Residential Construction

Celebrate residential construction on social media. Share a snapshot or video clip demonstrating how you celebrated careers in construction month, or bringing attention to a teacher or mentor who uplifts and inspires those who are pursuing a homebuilding career. Tag @NAHB and @NAHBstudents and use hashtags #CareersInConstruction #CICM2024
