

Introduction to Data Science

How do we add missing data to a dataset?

Let's consider a dataset with missing values. The following table shows the first few rows of a dataset with missing values in the 'Age' and 'Gender' columns. The 'Age' column has missing values for the first two rows, and the 'Gender' column has missing values for the first two rows. The 'Age' column has missing values for the first two rows, and the 'Gender' column has missing values for the first two rows.

Below is a table showing the first few rows of a dataset with missing values in the 'Age' and 'Gender' columns. The 'Age' column has missing values for the first two rows, and the 'Gender' column has missing values for the first two rows.

POLLING QUESTION, I . . . C . . . a D . . . c ,

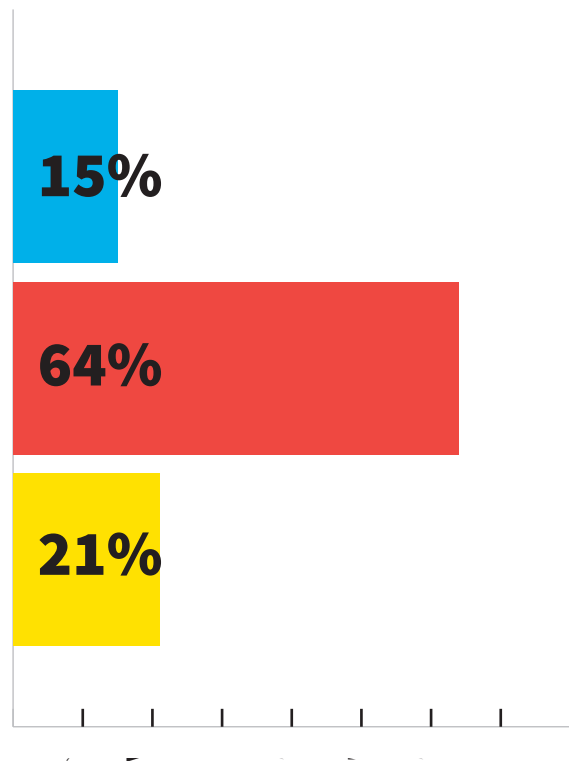

W, c, c, a, a

[illegible]

C

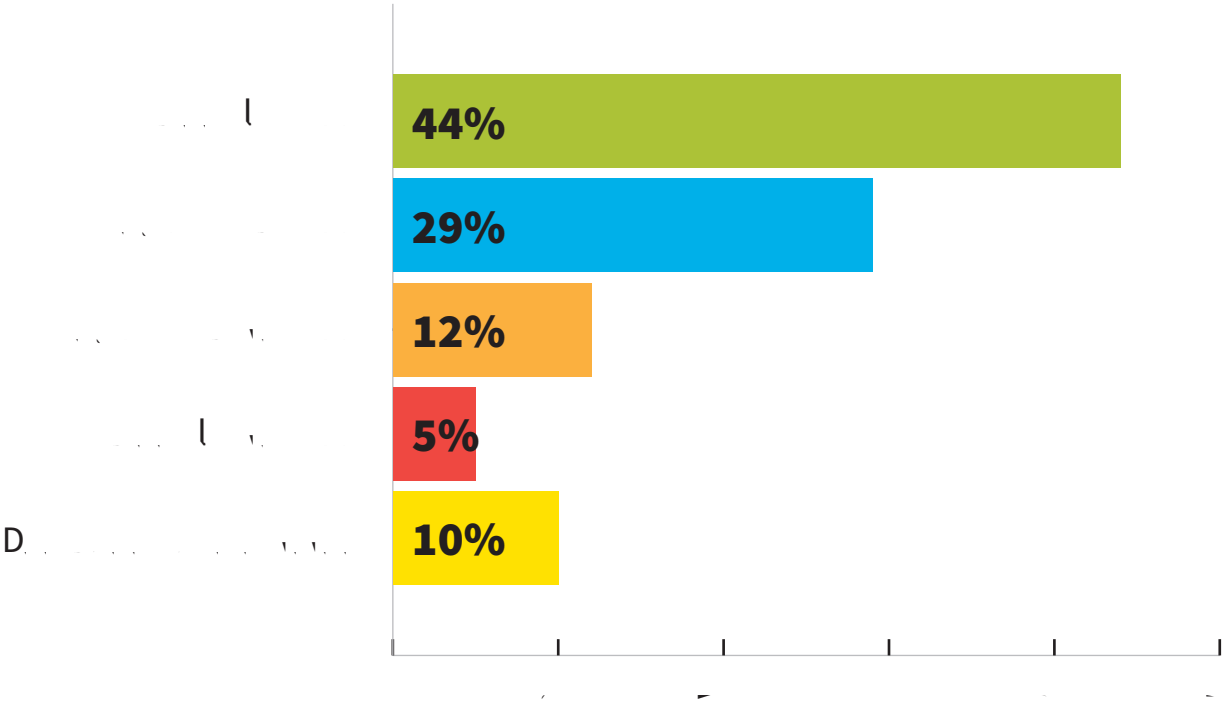

Figure 3C shows the results of the analysis of variance for the effect of the number of trials on the number of correct responses. The number of correct responses increased with the number of trials, and the increase was significant for the 10 trials condition ($F(1, 15) = 10.0, p < 0.01$). The number of correct responses was significantly higher for the 10 trials condition than for the 5 trials condition ($F(1, 15) = 10.0, p < 0.01$). The number of correct responses was significantly higher for the 10 trials condition than for the 5 trials condition ($F(1, 15) = 10.0, p < 0.01$). The number of correct responses was significantly higher for the 10 trials condition than for the 5 trials condition ($F(1, 15) = 10.0, p < 0.01$).

D.

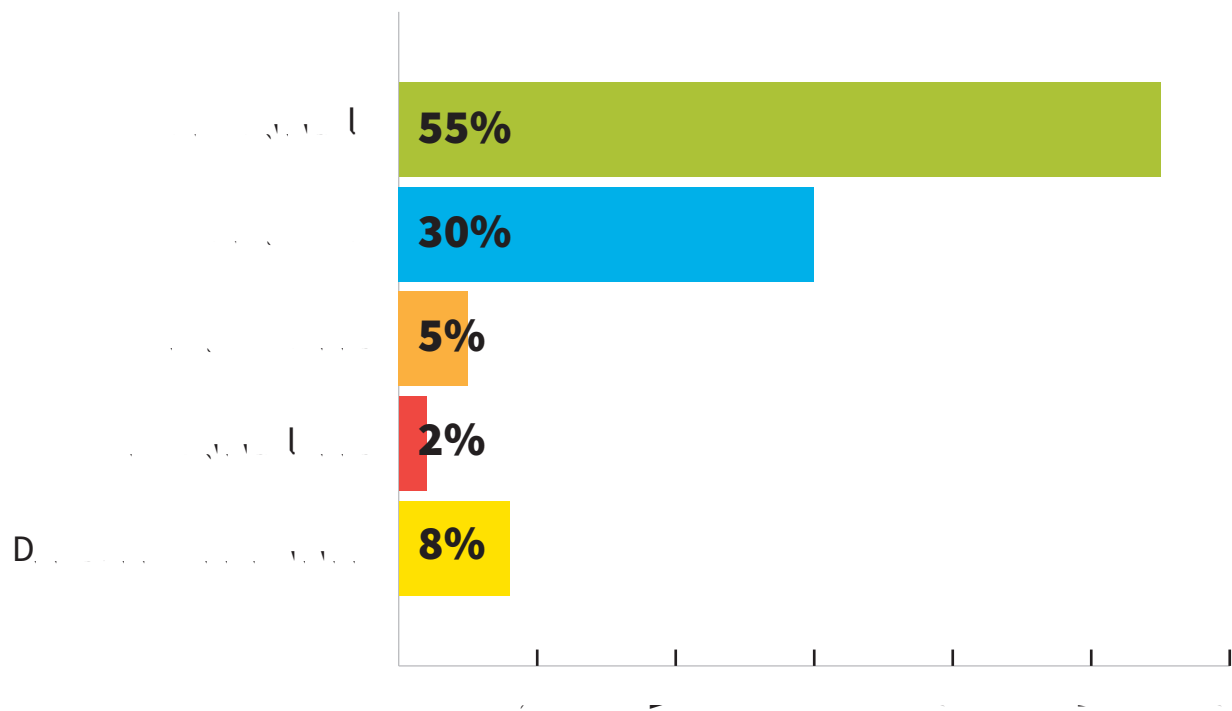

POLLING QUESTION: I am a Democrat,

Do you support the following?

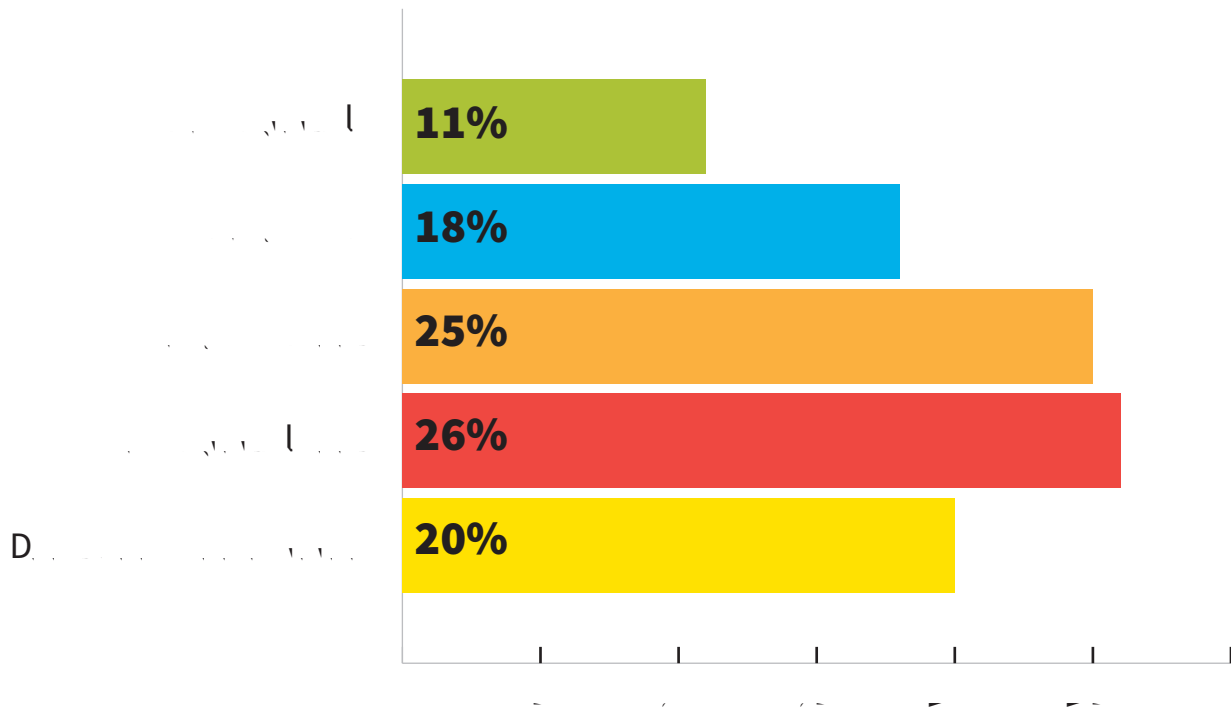

POLLING QUESTION

I am a member of the NAHB and I am a member of the NAHB
 I am a member of the NAHB and I am a member of the NAHB
 I am a member of the NAHB and I am a member of the NAHB

POLLING QUESTION: I am a Democrat,

Do you support the addition of a 1% sales tax to fund the state's infrastructure?

POLLING QUESTION

Do you support the proposed changes to the National Health Insurance Bill?
