

Housing Affordability Must Be Addressed Locally and Nationally

It's harder than ever for American families to find a home that meets their needs at a price they can afford. Policymakers at all levels of government are looking for ways to provide more affordable homeownership and rental housing opportunities. In response, the National Association of Home Builders (NAHB) is offering a [10-point plan](#) with potential policy solutions that can be implemented at the local, state and federal levels to address the root of the problem – the impediments to increasing the nation's housing supply.

Below you will find a brief look at economic markers, as well as district residents' responses to survey questions about important housing topics.
