

Home Building Industry Disaster Relief Fund Application Information

The Home Building Industry Disaster Relief Fund (HBIDRF) was established to assist areas affected by natural disaster with a focus on rebuilding communities and helping people get back into their homes. The HBIDRF is a recognized 501(c)(3) charitable organization.

The HBIDRF makes funds available for direct contribution to other recognized charities aiming to meet the primary need of shelter for victims of disaster. The HBIDRF board would like to give you the opportunity to recommend charitable organizations that are actively working in your region.

Charities can include any recognized 501(c)(3) organization operated exclusively for charitable purposes. These charitable organizations may be involved in making direct contributions to adversely impacted individuals through established process, or with coordinated building projects such as temporary shelters, one-day re-builds, blitzes, etc.

Requests should clearly demonstrate the coordination between the local building industry, the charitable organization and the rebuilding activities. For example, the HBIDRF has proudly supported the efforts of builders who have volunteered to repair houses for victims of disaster by providing funds to purchase the necessary building materials for these activities.

Your application will be reviewed by the HBIDRF Board of Directors who will make all funding decisions. In order to best evaluate the funding request, please provide documentation confirming the charitable status of the suggested organization along with information about the activities of the organization and how those activities align with the objectives of the HBIDRF. Funds are limited and will be disbursed upon approval of the HBIDRF Board and as available.
